Wetland Legacies

Wetland Reserve Easements (WRE) Program Overview

Wetland Legacies

Nebraska Landowner Stories

USDA Natural Resources Conservation Service

August 25, 2025 · 🌐

In Nebraska, these landowners are leaving a lasting legacy of wildlife habitat, flood control and improved water quality through wetland reserve easements. As we wrap up this month's celebration of Water Quality Month, we also celebrate the landowners choose to protect their wetlands for future generations. For landowners in any state who have altered or drained wetlands, including problem wet areas, we've got options available to you, just contact us.
